et DEAR MRS. PINKHAM: -- I was in an awful state for nearly three years with a complication of female troubles which three physicians called by different names, but the pains were all the same. I dreaded the time of my

monthly periods for it meant a couple of days in bed in awful agony. I finally made up my mind that the good doctors were guessing; and hearing from different friends such good reports of Lydia E. Pinkham's Vegetable Compound, I tried that. I bless the day I did, for it was the dawning of a new life for me. I used five bottles before I was cured, but when they were taken I was a well woman once more. Your Compound is certainly wonderful. Several of my friends have used it since, and nothing but the best do I ever hear from its use."—Yours, MARELLE L. Other, B. & O. Changes-New York Central to Buy the Big Four. Local Notes.

Among the recent changes in the B. & O. that are of interest to Newark people are the transfer of Mr. George W. Ordering Equipment

In one week the railroads have ordered \$10,000,000 worth of new freight equipment and more than \$5,000,000 worth of new coaches; dining cars, and engines. The Southern Pacific order for 103 new engines was the largest given out. The different roads or dered 14,337 new freight cars and while the exact figures cannot be obtained it is admitted that in the aggregate the equipment ordered in one week will cost over \$10,000,000.

The Pennsylvania is about to order more freight cars and locomotives, and the Lake Shore and other roads are hurrying orders for new coaches. freight cars, and engines. All the big car works and locombtive vorus in the United States are crowded with orders, and the Pressed Steel Ca company cannot begin to get cars out in time to meet the demand, and they are about ready to prepare pans for large extension to their shows

Cleveland, Jan. 23.-Representatives of the Elkins-Widener syndicate have examined all the traction interests of the Everett-Moore syndicate with the object in view of purchasing the extensive railway interests, including the properties in this city. It is said that the representatives of the Elkins-Widener syndicate are very well satisfied with the physical condition of the traction lines and consider it a desirable investment. It is now practically settled that either the Federal telephone system or the entire traction system' will be sold in a lump. The sale of either property will ehminate necessity of selling the other.
